Let me tell you the third "rule of time".

Even the minutest detail. Your memories could save your life.

Wait, by every event, you don't mean...

Alright... I'll keep notes.

Rule three: Remember every event that occurs.

I'll try...

Notes won't be enough. You need to keep them in your head.

I just can't do it! I'm an ordinary person, unlike you!

You'll try? Do you still not understand what position you're in?

Huh!?

I am not the only one with the ability to manipulate time.

I'm sure you've had these kinds of experiences yourself.

Say, for instance, an hour seems to go by quickly when you're focused on something, yet it seems twice as long when you're bored or in pain.

It's simply that most people live their entire lives without awareness of this ability.

Everybody is capable of manipulating time.

T-That can't be true!

Well, that's... just a matter of perception...

AHHH!

Has time ever seemed to go by in slow motion? Many people experience this when they are in an accident or face some other threat to their life.

I'm gonna crash!

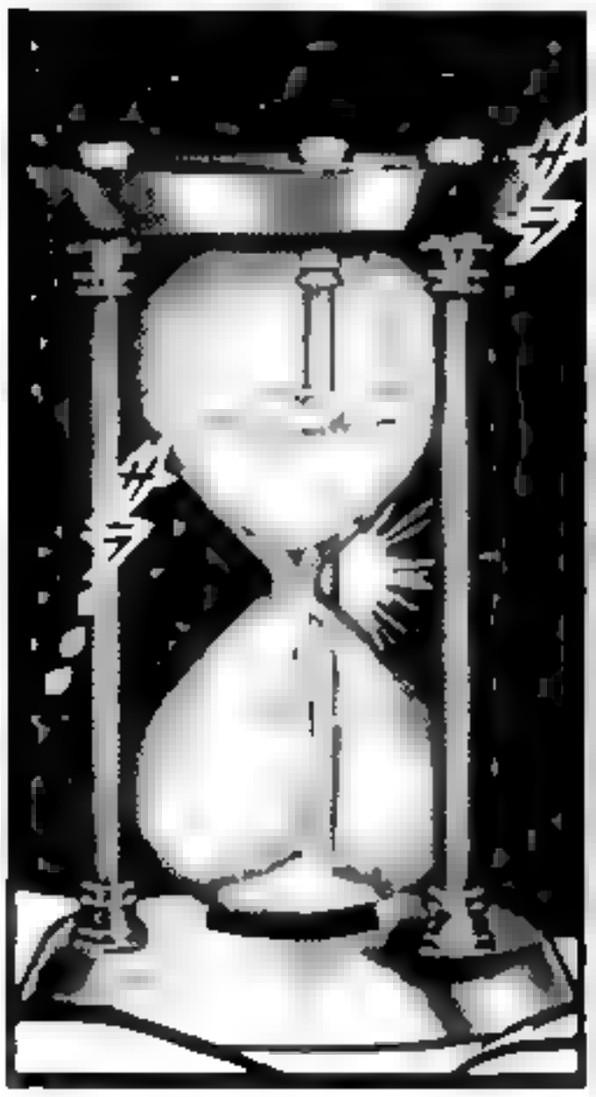
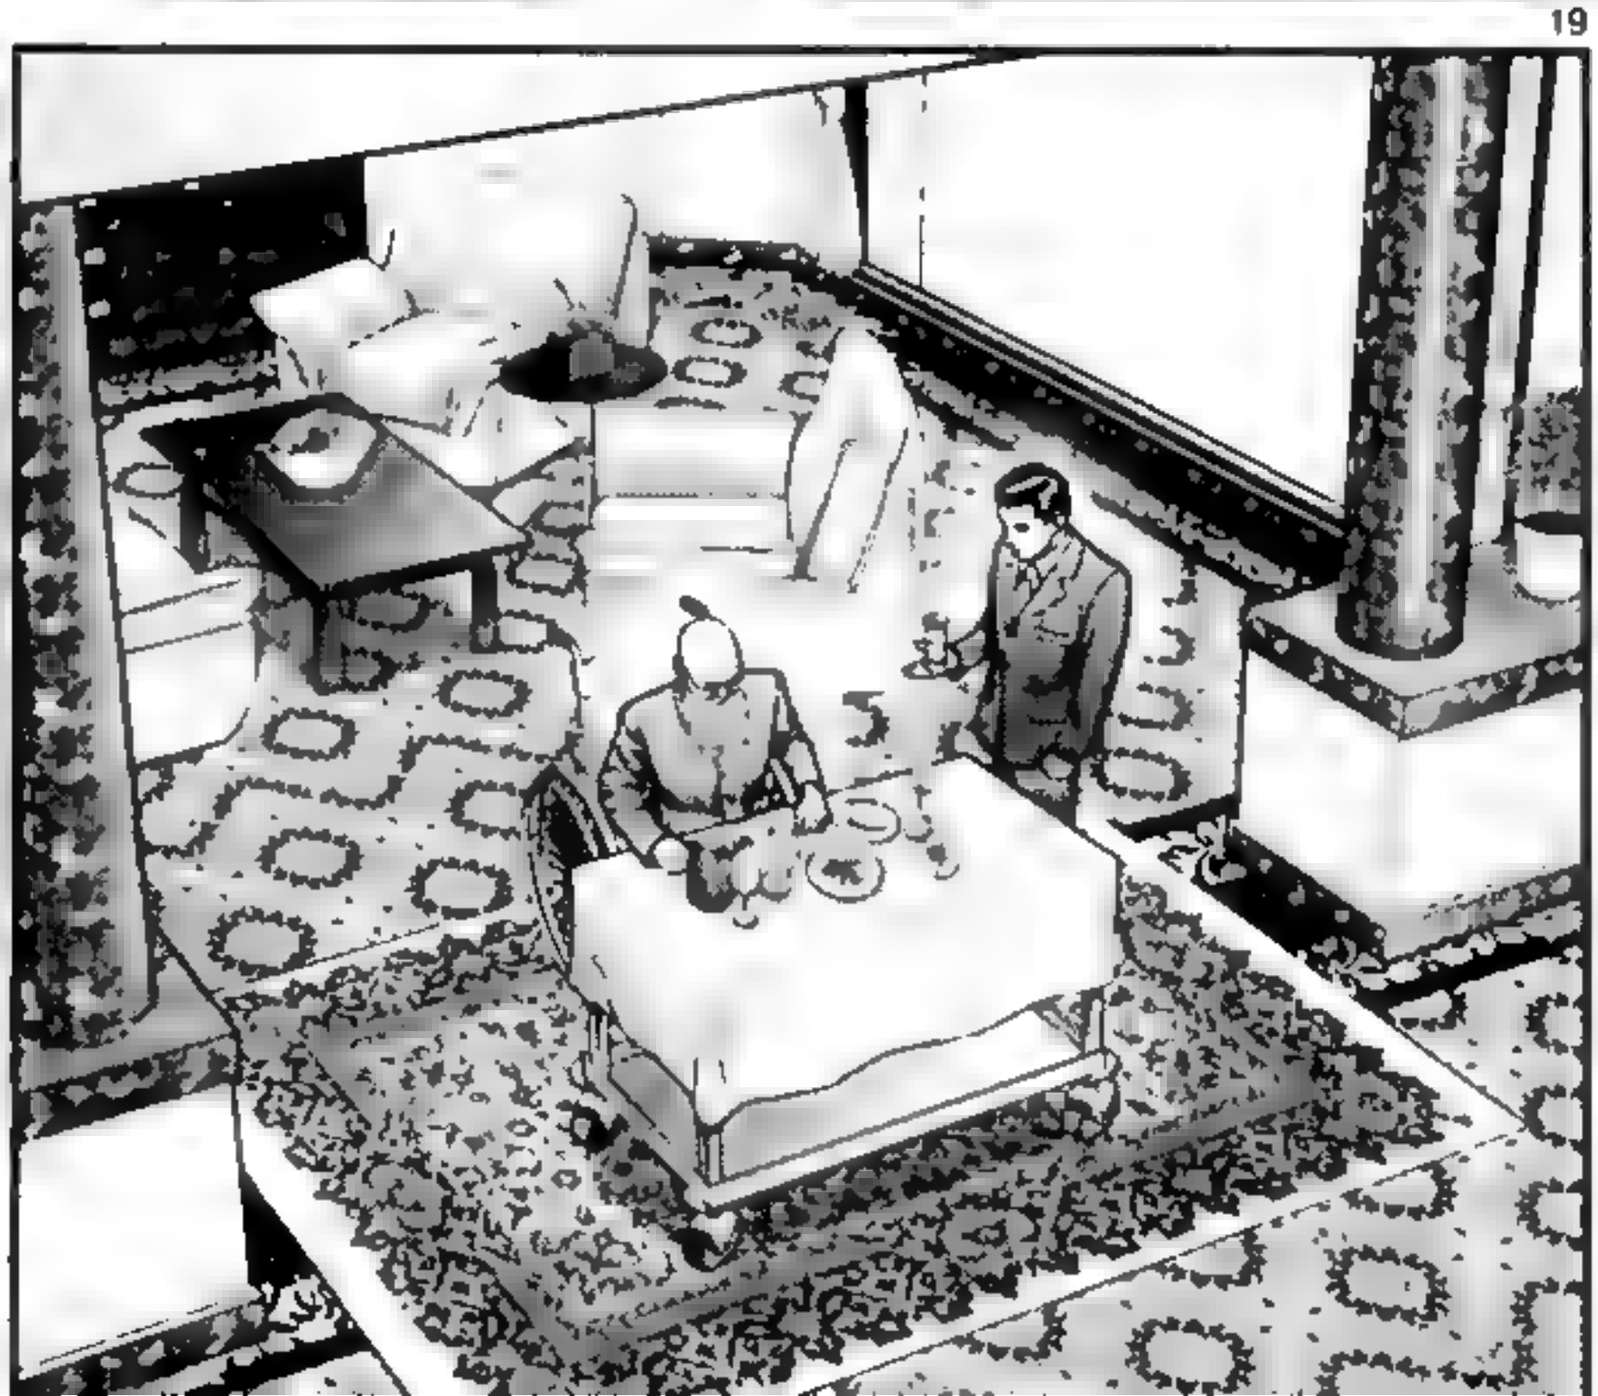
19



23



But...
That was...

I take it you have.

The same goes for the so-called "zone", where professional baseball players in peak condition see the ball stop in midair.

One theory explains this phenomenon by stating that the brain begins revolving rapidly, suddenly improving its ability to process information.

N-No...

Do you think your current experiences can be explained so simply?

...I've heard about that from TV.

There are even deeper mysteries within the human brain.

Just as there are only a handful of people in this world that can run a hundred meters in under ten seconds, so there are a handful of people that excel at manipulating time.

Someone became my "master" and taught me.

H-How did you notice you could control time?

And he could control time...?

He's no longer of this world, of course.

My master was capable of stopping time For thirteen minutes, and turning it back For nine days.

You must hurry... You have little time left.

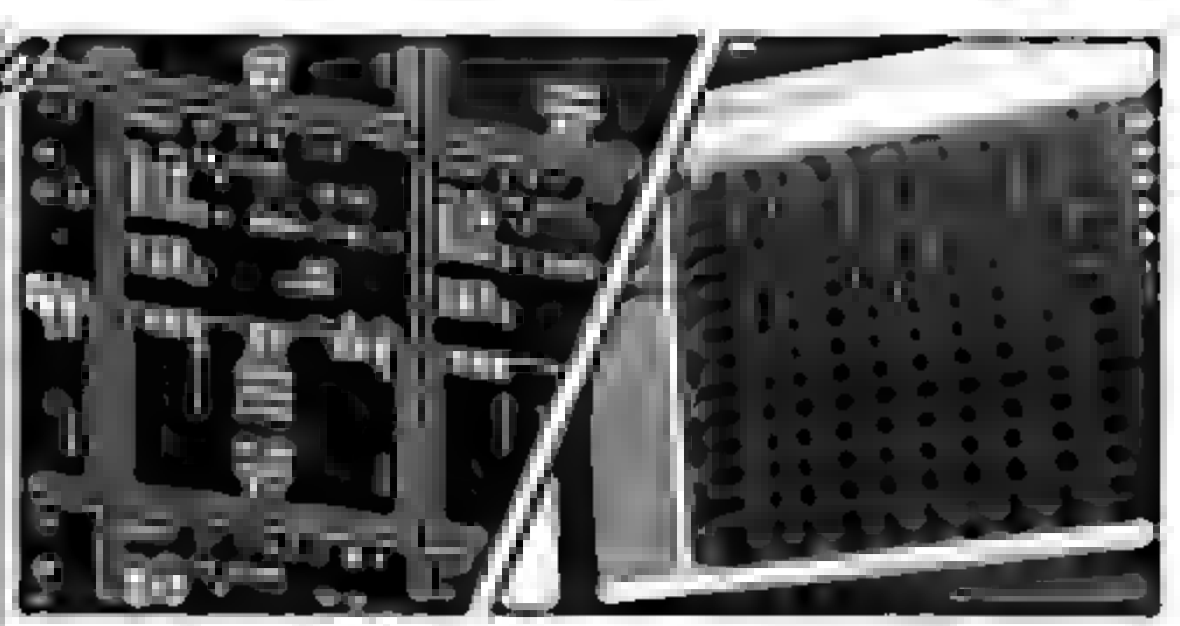
You must find and kill the terrorist hiding in the Babel.

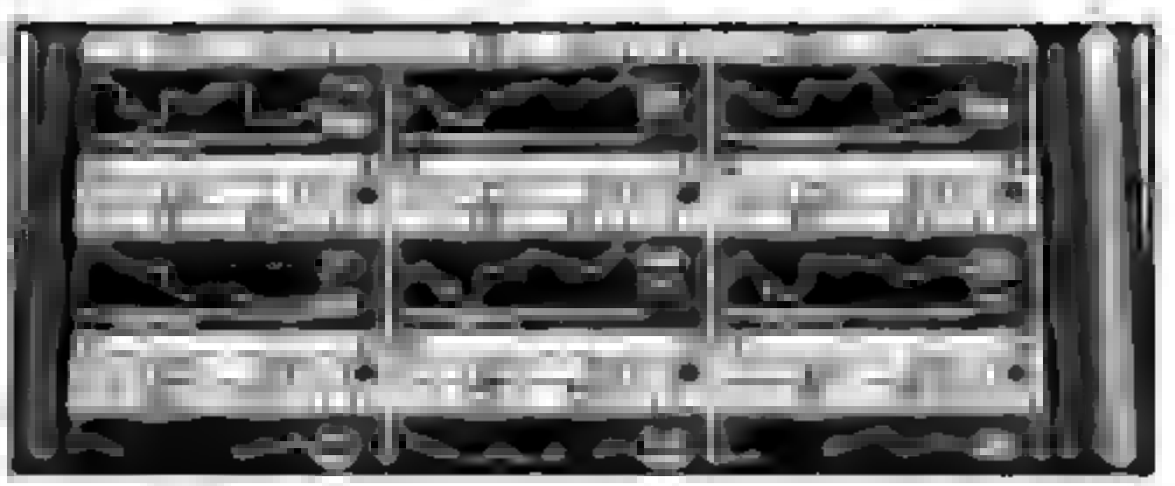
His name's "Kagawa", but that's most likely an alias.

I've received information from Akiyoshi that there's a guest who's been in the Babel for nearly half a year.

R... Right...

I under-stand... I'll look into him.





ルルル

Mr Kagawa, this is the front desk

You can live any way you want.

You have the power to see the future, don't you?

You've always had a sweet tooth.

I ordered them from an old shop in Hyogo.

These rice cakes are quite tasty.

You're far too wise for me, Mitchy.

Can you please stop calling me that already?

You can rest easy. You won't be dying for a long time.

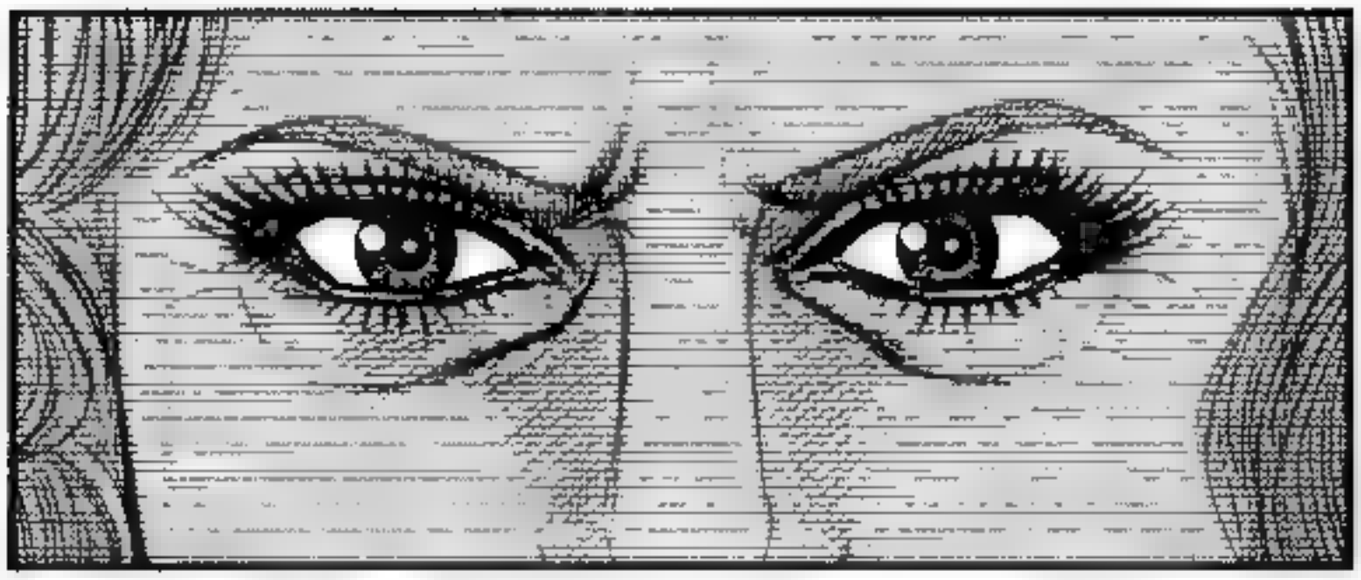
I'm trying to cut back on sweets, for health reasons. I can't afford to die just yet.

Considering you started out as a snot-nosed gang boss, I think you owe me a little more respect.

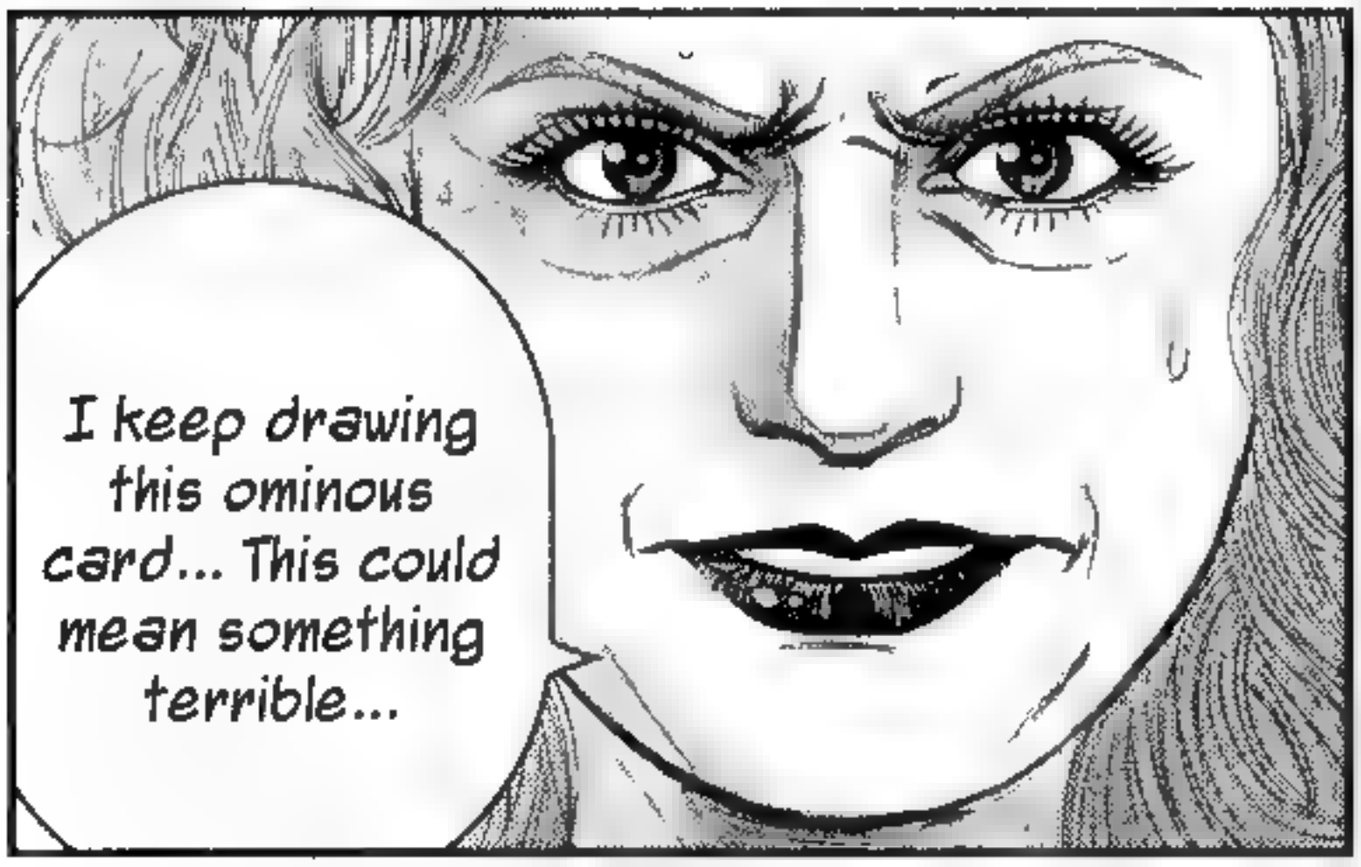
And who do you have to thank for becoming the boss of this country?

You're my childhood friend. You should be fine with it.

Not again...

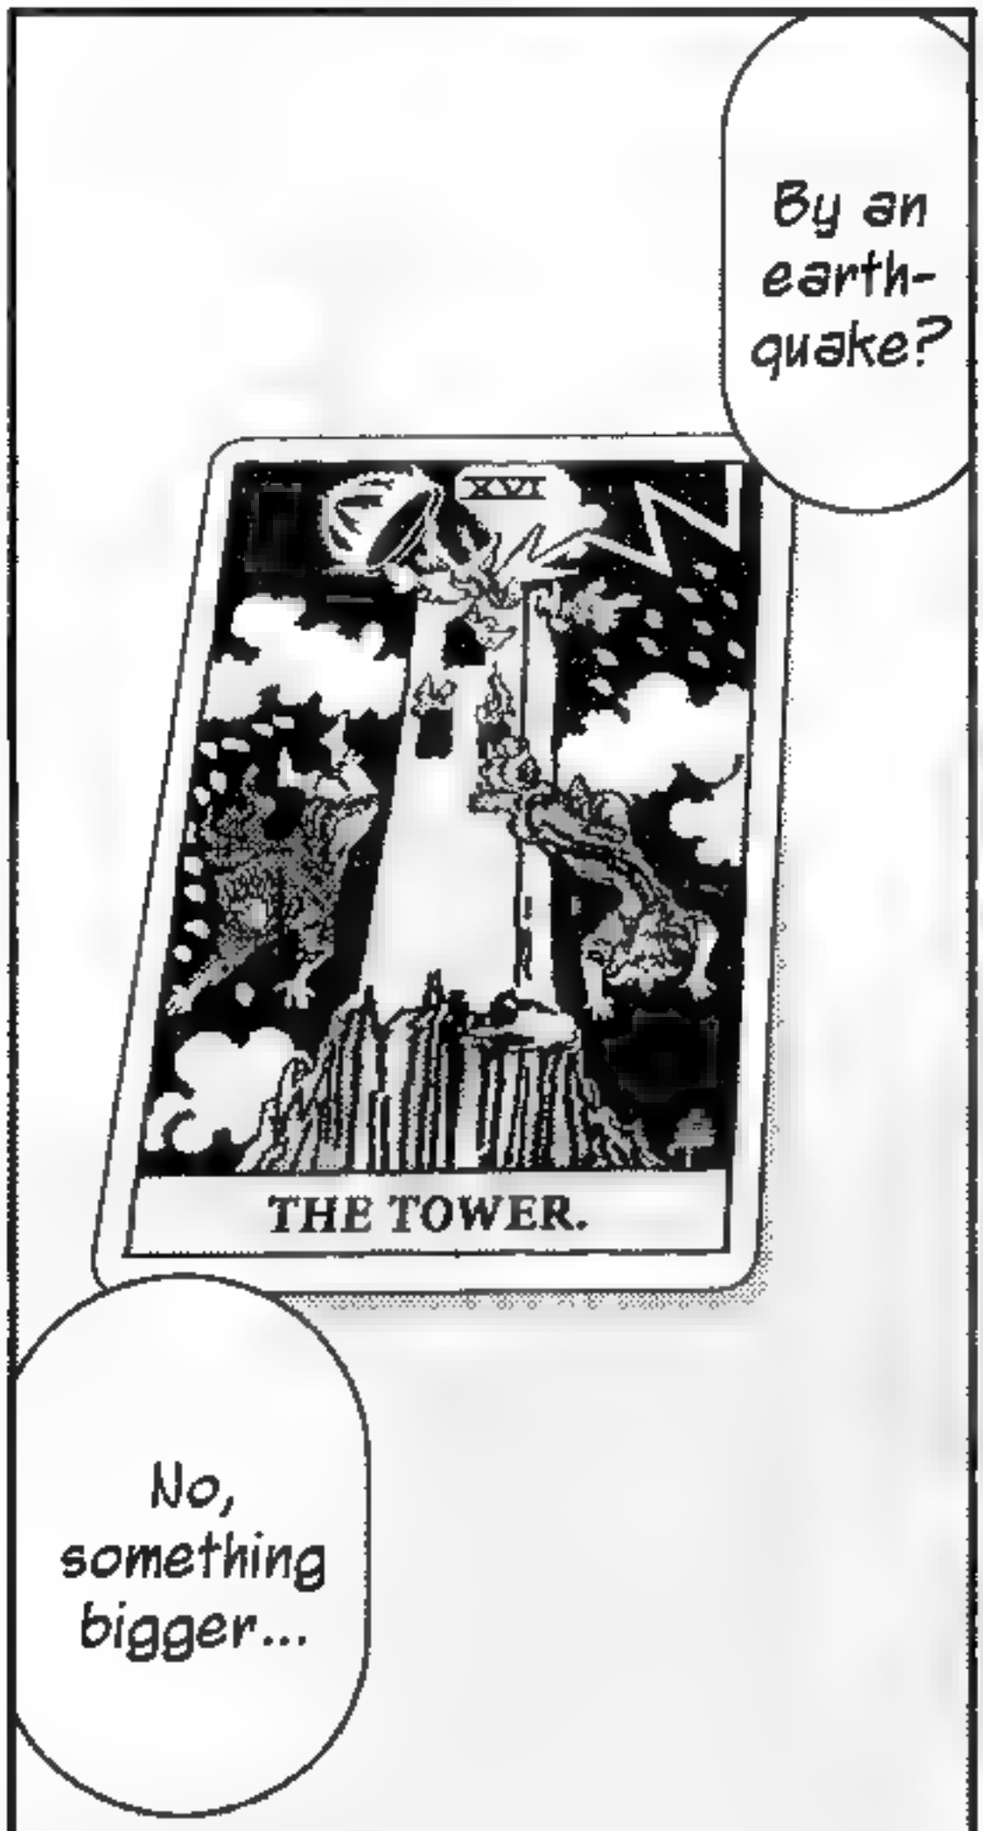


Is some-thing wrong?



I keep drawing this ominous card... This could mean something terrible...

THE TOWER.



By an earth-quake?
XVI
THE TOWER.
No, something bigger...

Is some-thing going to happen?
Tokyo... No... Japan will be des-troyed.

Tell me more.

If it were any other Fortune-teller telling me this, I would be laughing my way out.

It's worse than anything I've ever felt before. This could mean...

I've had a vague sense of unease all day.

I should expect no less of Japan's greatest spiritualist.

...Did you see the future?

Will there be a war? It feels like this whole world is covered in an evil aura.

But what a tragic irony. No matter how talented a spiritualist you are, you cannot see your own destiny.

You don't mean...

I'm grateful for all the help you've given me, Milady

There's only one way to keep someone as connected as you are!

What... are you doing...?

S... Stop this at once!

Forgive me. This is for the future of Japan.

Don't worry. You won't feel a thing.

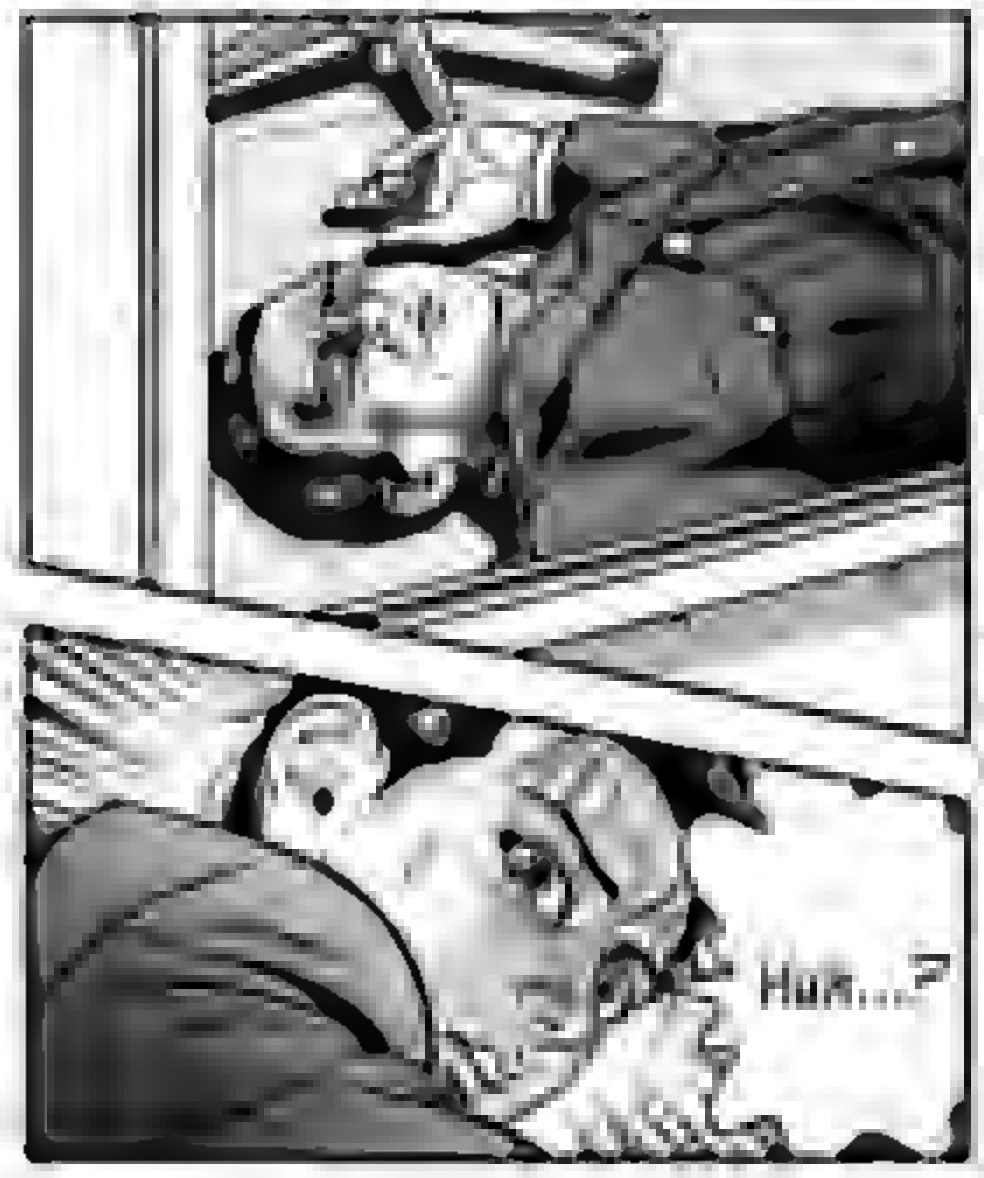
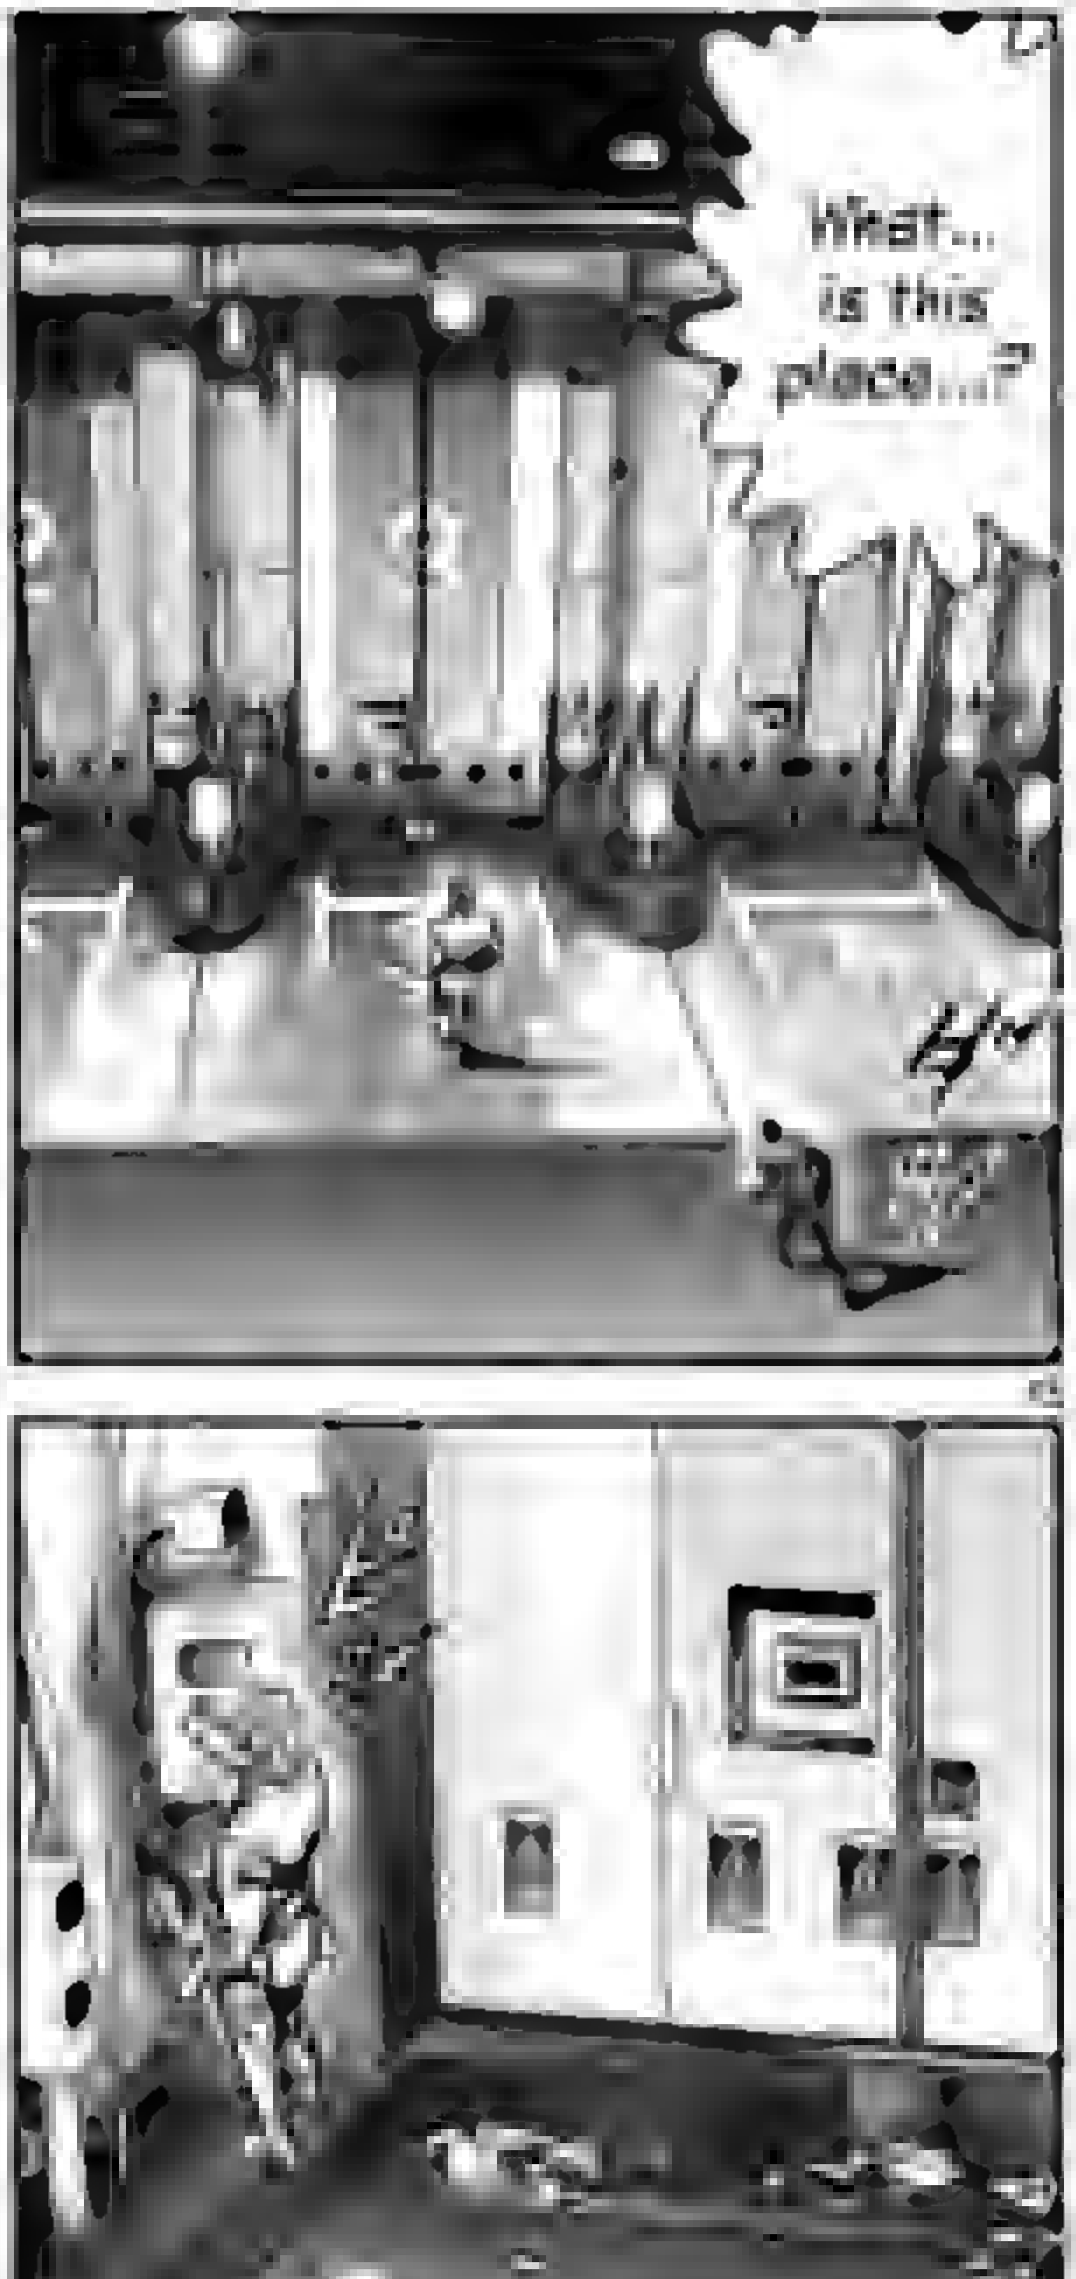
Where are we?



Huh...?

Just shut up and follow me.

Nyaa



What... is this place...?

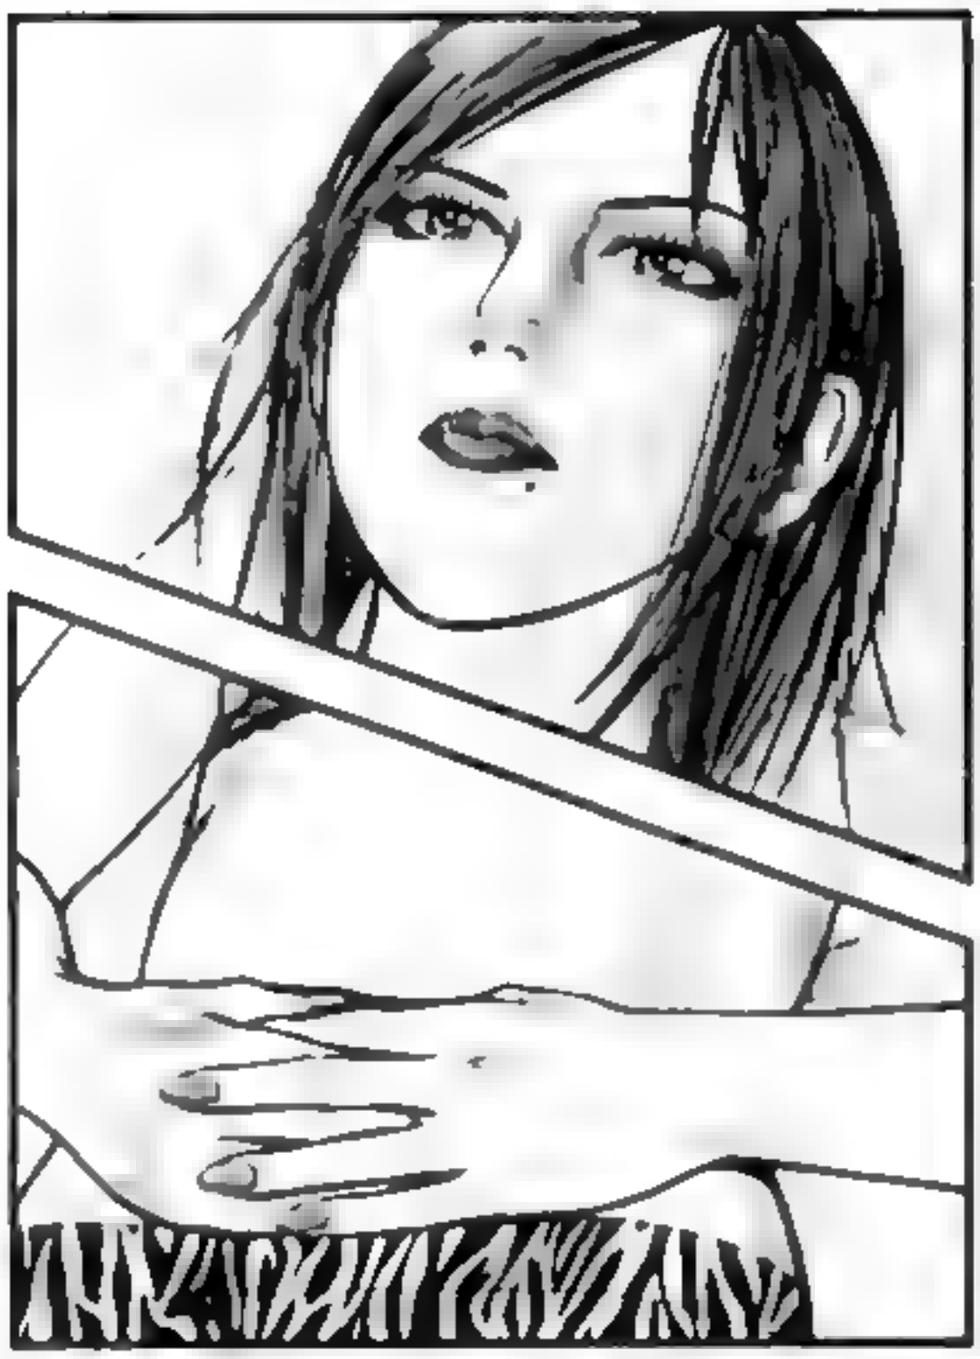
It's an island of trash in Tokyo Bay.

What are we doing here...?

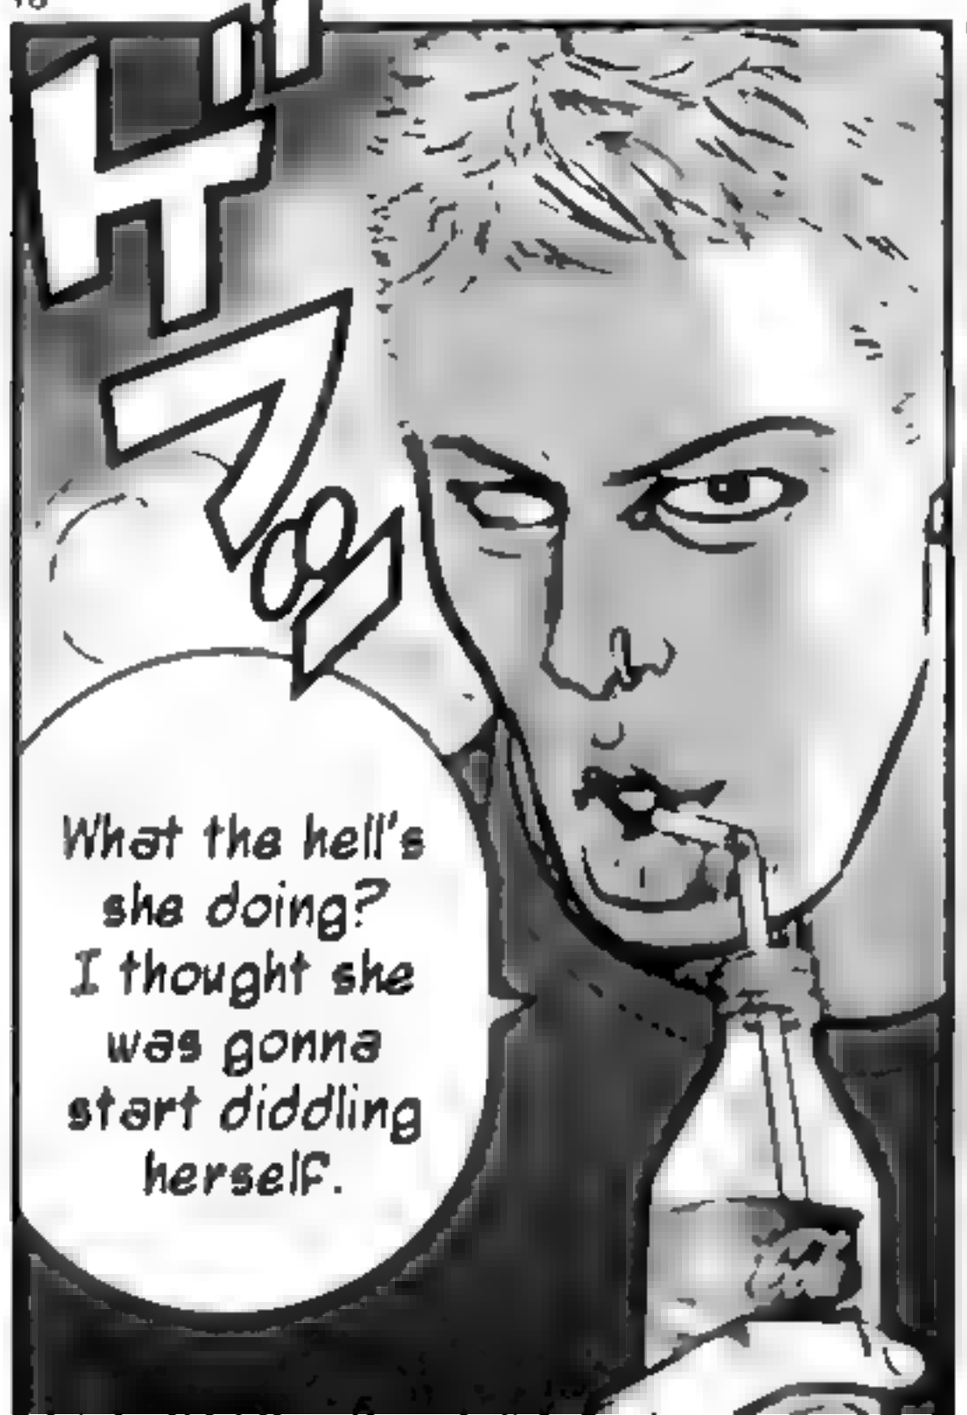
Hey! Answer me!

Waa ugh!

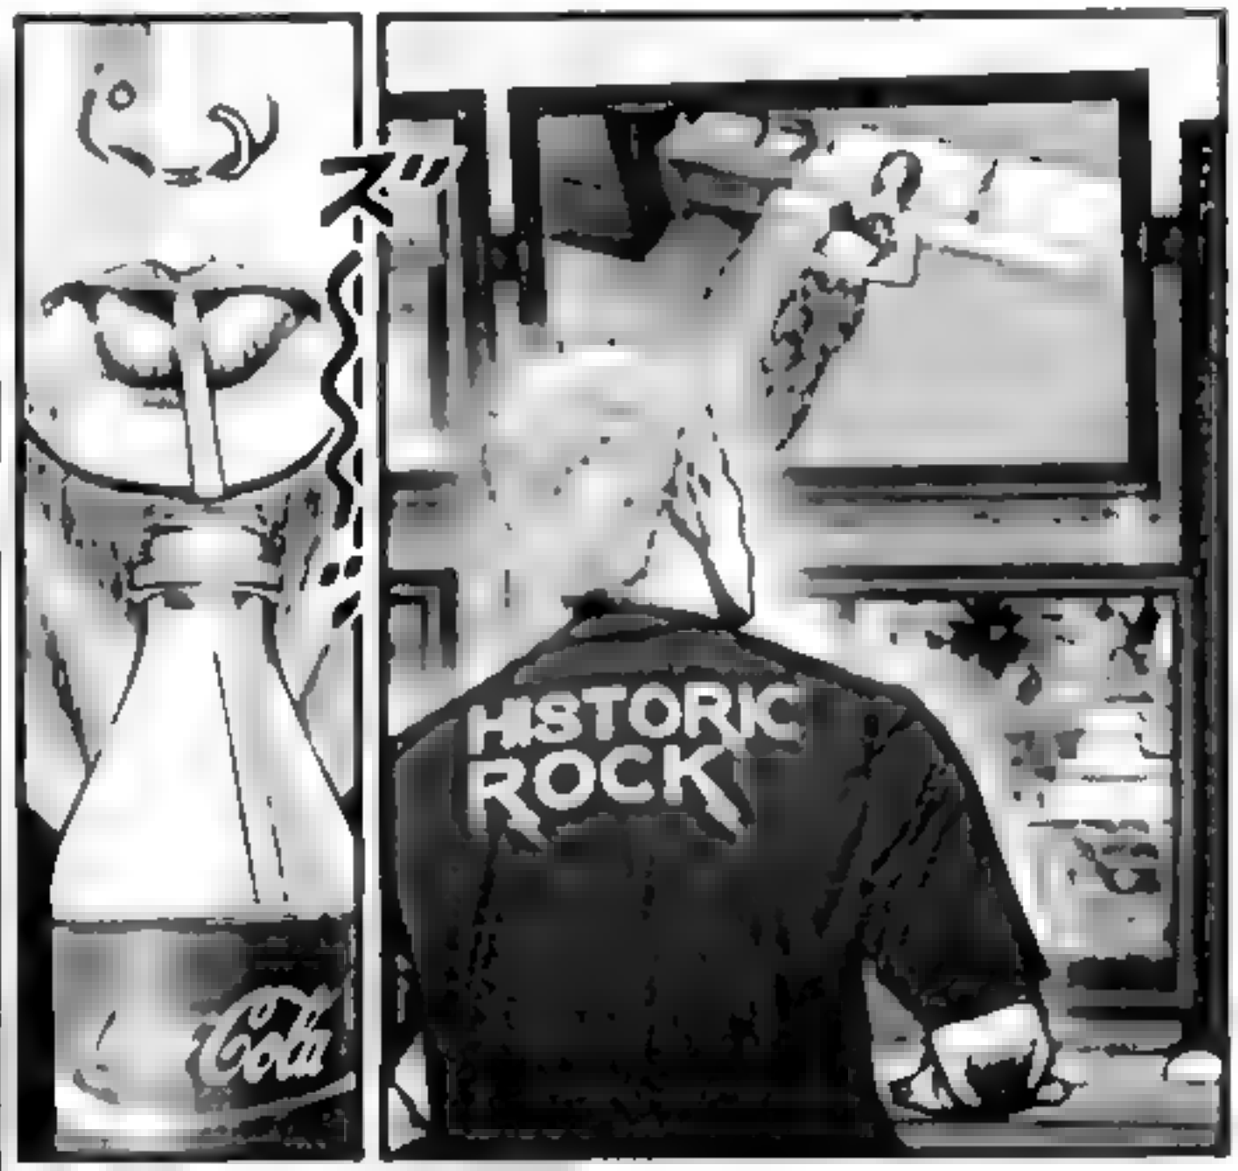
Wait!



What is happening to me?



HI!
What the hell's she doing? I thought she was gonna start diddling herself.



HISTORIC ROCK

Did something happen to her?

I see...

I wouldn't expect a skilled assassin to have such a stupid look on her face.

How's Naomi doing?

She's not her usual self, that's for sure. She's staring off into space, like her soul's been taken out.

...Stom-ach?

You think she might have a stomachache?

No, she's been on the top of her game until now. There shouldn't be any issues...

What do you mean?

She's been holding her stomach for a while now.

You think she ate something rotten?

Naomi ...

Come on, tell me already! What do you want to show me here?

The answer.

Answer ?

Take a close look at your feet.

ドサッ!

ドサッ!

But I thought... you just knocked him out...

Y-You killed him!?

Who... could've done this...?

Look closer.

The people I've been looking for. And I've finally made it this far.

W-What are you ...

Is that ....?

I was shot with a shotgun when I was only ten...

y-you're kidding, right?

You have no idea how many times I wished it wasn't true...

...Huh?

Because my family was killed right before my eyes!

My mother and Father had their heads blown to pieces like water-melons. I tried to protect my sister... But I was just a kid. I couldn't do a thing.

I never knew he had such a past...

I mir-acu'ous'y survived, and was taken to an orphan-age

Sayuri took care of me while I was there...

So they're not real siblings..

My father was a detective, so I believed that the perp was one of the people involved in one of his cases.

I spent years looking for the people that killed my family.

I don't know yet...

T-Then who is it?

Seriously ...?

But he's in the Babel right now.

I don't know everything about this organization. I just barely figured out that the organization kills people at the Babel and dumps the bodies here.

My job is just to hand people over to the organization at the Babel.

That's

Hmpf...

That cabin attendant was the First. Then there's those two...

...You would never under-stand.

How many people have you gotten killed so far!?

She was one of the targets. I took her to the Babel.

How could you help the organization commit murder_ Even to get vengeance for your family_?

Kch... But how did you make it to the organization... to the Babel?

Ha?

And he was among them

I went through plenty of illegal jobs to make a name for myself in the criminal underworld, and I approached people involved in my father's cases

The Babel's concierge, Yokomizo.

T... That's not possible ...!

Sorry to keep calling you, Naomi.

What do you want?

You have two targets left to eliminate by New Year's Eve.

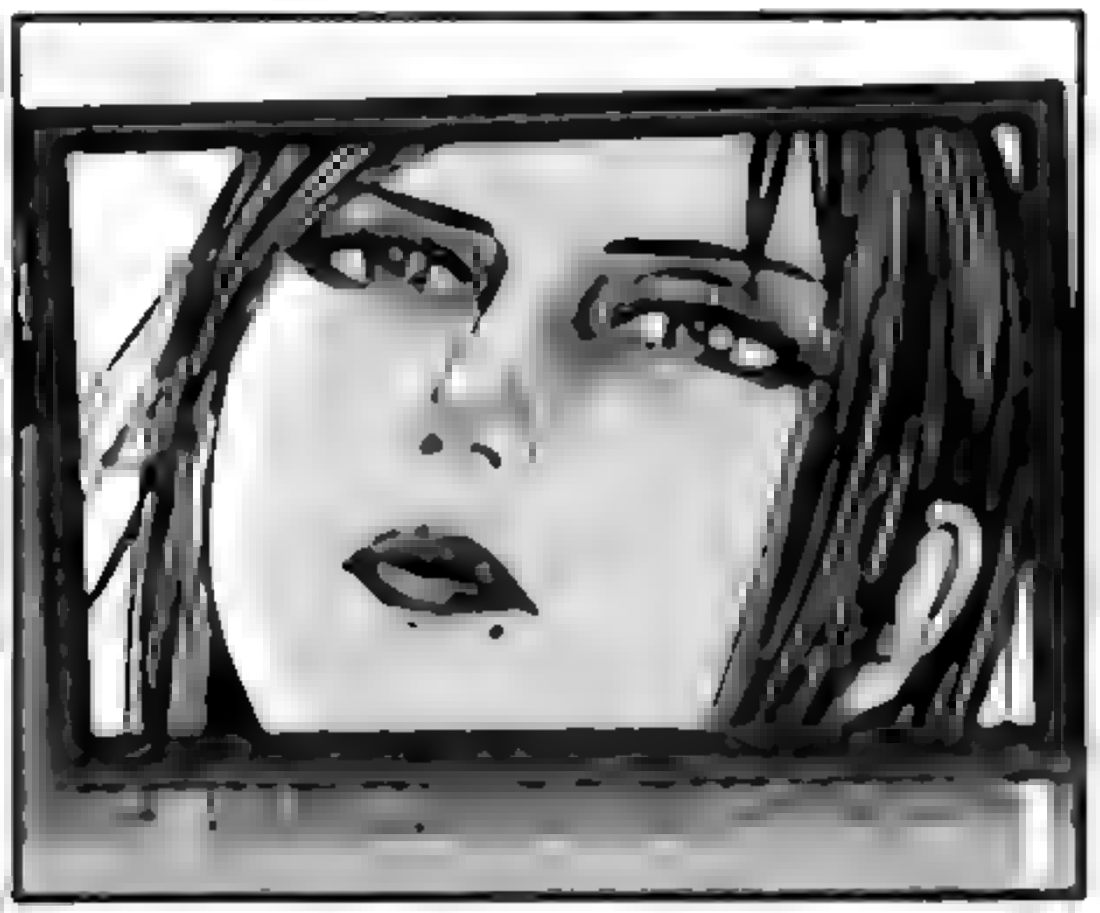
If it's too hard for you, I'll have to call in a substitute.

.....

I was worried that you might not be feeling well.

...There's no problem here. If you call in a substitute, I'll kill him.

Nooo-eee! She's a feisty bitch, alright. I've still got a hard-on, though.



You're close to Yokomizo. Look into him yourself if you doubt me.

T... The con-cierge ...?

Friends ?

So that's why... That's why you made friends with me?

I don't need any friends. I only seek revenge, no matter the cost.

...Even knowing that the world will be de-stroyed?

That's how I live.

What a sad... sad life.
It's far more sublime than my life could ever hope to be... But it's...

Otherwise, my life will have been meaning-less!!
